

There will be a traffic pattern change beginning June 15th for the Southside Sidewalk project construction.

The Phase I portion of the project includes Route 23 westbound in the Town of Oneonta from the Mall/Well Now Plaza to the Lettis Highway/McDonalds intersection. Traffic in the westbound lane will be slightly shifted towards the south for this phase. The right turn lane from Route 23 to the Lettis Highway will not be available, right turning traffic will be combined with the through lane.

There will be no actual lane closures or detours in effect for this phase.
